Sorry Friday doesn't work. Believe it or not I have a senior going to college next year and Friday is an accepted student day at UMASS that she and I are scheduled to attend.

Great, next week is better for me anyway. I'm pretty swamped this week. I have an open ended summons for a part 2 of a case for the beginning of the week in Middlesex Superior so how bout Friday? Good luck with the surge exercise!

Hi Dan,  
We are just beginning a surge exercise, so my schedule is essentially full for the next few days. I do have my calendar in outlook but look towards next week.  
Thanks,  
Julie

Good morning Julie. Did you still want to get together to discuss the software upgrade for the last GC/MS? Peter's off today and I have to hit the last purchasing training @ 10am this morning but we can talk about it whenever you'd like. Also, I'd still like to talk with you about my potential upgrade to a Chem 3 in the future. Do you want me to just pencil something in on your calendar and see if it works for you? Thanks.

-Dan
